PROFILE SUMMARY

Passionate and dedicated Frontend Developer with a strong foundation in web development and a focus on creating responsive, user-friendly interfaces. Currently in the second year of a web and app development course, with hands-on experience in frontend projects and progressing skills in backend and app development. Eager to apply knowledge in HTML, CSS, JavaScript, and modern frameworks to build efficient and visually appealing digital solutions.

PROJECTS

COFFEE WEBSITE

<https://zainabbilal123.github.io/coffee-shop-website/>

- Responsive Design:** Built with HTML, CSS, and Bootstrap, the website is fully responsive, ensuring optimal viewing across various devices, including mobile, tablet, and desktop screens.
- Modern Aesthetics and Easy Navigation:** The website features a clean and visually appealing design with smooth navigation, showcasing coffee products and services effectively to enhance user engagement.

BOOK WEBSITE

<https://zainabbilal123.github.io/book-website/>

- User-Centric Interface:** Designed with a clear layout to enhance readability and navigation, making it easy for users to browse and explore books.
- Responsive Design:** Developed with HTML, CSS, and Bootstrap to ensure seamless performance and visual consistency on mobile, tablet, and desktop devices.

BMI CALCULATOR

<https://zainabbilal123.github.io/BMI-calculator/>

- Interactive Functionality:** Built with HTML, CSS, and JavaScript, the calculator allows users to input height and weight, instantly displaying their BMI results based on the entered values.
- User-Friendly Design:** Features a clean and intuitive layout, making it easy for users to understand and interact with the calculator.
- Real-Time Calculation:** Utilizes JavaScript to calculate BMI in real time, providing immediate feedback without needing to refresh or reload the page.
- Responsive Layout:** Designed with responsive styling to ensure the calculator adapts well to different screen sizes, including mobile and desktop.
